

# CRYSTEEL

- Available from 12' to 21'.
- Raptor & RipRaptor models.
- Extraordinary standard features.

Raptor pictured has optional ballmount design, full length fenders and hydraulic tailgate.

***Building the World's Best Truck Bodies & Hoists***

# Move Mountains with Crysteel Raptor and RipRaptor

## Raptor—smooth understructure, smooth dumping, and smooth sailing.

Free yourself from everyday dump bodies with the Raptor by Crysteel. Raptor combines good looks and good sense. Constructed of super high-strength steel, this body is not only strong, but it actually weighs less than conventional dump bodies of the same capacity. Get fully boxed top rails, sloped tailgate, air tailgate release, and  $\frac{3}{16}$ " AR400 145,000 psi yield floor—standard. Choose your Raptor from five available lengths in 15 to 20-yard capacities.

## RipRaptor—with construction, demolition, and rock as prey.

At home in a quarry, the RipRaptor by Crysteel provides remarkable rock and demolition handling capabilities. It has all the standard features of the Raptor and adds upgrades of  $\frac{1}{4}$ " AR400 floor, sides and tailgate to withstand the elements and deliver exceptional performance at a surprisingly lean weight. Equip RipRaptor with a standard Crysteel Turbo hoist or optional Marathon hoist with AutoBleed™ cylinders. Where conventional dump bodies fall short, Crysteel RipRaptor gets its fill.

- Contemporary design

- 8" mounting height for lower center of gravity
- Crossmemberless "Western" understructure

- Smooth dumping
- Lighter weight than conventional bodies

**Elliptical Shape** body with multi-break design for contemporary appearance and structural rigidity.

**Sloped Tailgate**, standard on Raptor, offers good looks with faster, more positive closing.

**Asphalt Rear Option** eliminates the need for a spreader apron and the tapered frame allows for quick pull-away from paver boxes.

**Hydraulic Tailgate** creates an opening 18 inches higher than tailgate itself. Plus, a 90° sweep means fast clean-out. Hydraulic cylinders are inside corner pillars for protection.

**Sloped Front Option** provides easy clean-out by minimizing doghouse. Also available with optional integral toolbox and oil reservoir.

#### TURBO/MARATHON HOISTS

The Turbo Telescopic Hoist provides hefty lifting action from start to finish. Its powerful base stage initiates the lift easily with a 1" stage increment, and delivers ample power throughout the dumping cycle.

Optional Marathon Hoist (see front cover) offers powerful lifting action without wasted doghouse space. Trunion mounting means outstanding stability. Plus, Crysteel's AUTOBLEED™ cylinders automatically and effortlessly remove unwanted air from the hydraulic system.

RAPTOR 20 YD SPECIFICATIONS					
Inside Length*	14'	15'	16'	17'	18'
Front Height	66"	66"	66"	66"	66"
Side Height	50"	50"	50"	50"	50"
End Height	58"	58"	58"	58"	58"
Yard Capacity	14-16.5	15-17.7	16-18.9	17-20	18-21.2
Body Weight Only Configured for Turbo Hoist	3005 lbs.	3120 lbs.	3235 lbs.	3350 lbs.	3465 lbs.

RIPRAPTOR 15 YD SPECIFICATIONS					
Inside Length*	14'	15'	16'	17'	18'
Front Height	62"	62"	66"	66"	66"
Side Height	42"	42"	42"	42"	42"
End Height	54"	54"	54"	54"	54"
Yard Capacity	11-15	12-16	13-17	14-18	15-19
Body Weight Only Configured for Turbo Hoist	4580 lbs.	4770 lbs.	5060 lbs.	5250 lbs.	5440 lbs.
For Hydraulic Tailgate Add	350 lbs.				

\* Additional length and height customization available upon request. Specifications subject to change.  
 \*\*Capacities based on water-level load, 50° dump angle, and includes body weight.  
**CAUTION:** The combined weights of truck, body, hoist and load must not exceed the truck's Gross Vehicle Weight rating.

### Standard Features and Specifications

- 1/4" AR400 floor, sides, front & tailgate (RipRaptor)
- 3/8" AR400, 145,000 psi yield floor (Raptor)
- 11 ga. 100,000 psi yield sides, front & tailgate (Raptor)
- Large 26" radius for easy clean-out
- Low 8" tubular longfills
- Fully boxed top rail
- 84" inside width, 96" outside width
- 3-panel tailgate
- 1 1/2" offset tailgate hinge plate
- Sloping boxed top rail with 3" wide board pockets
- Tandem steel fenders
- Air tailgate release
- FMVSS108 lights plus recessed stop/turn tail lights (Front marker lights available as an option)
- Hoists standard with chrome cylinders
