

Monroe 3500 Series Underbody Scraper

**Monroe's NEW
3500 Series Scraper...**

Clearing The Way To The Future

New & Improved Features

- 3-bolt hold down block, shaped to follow the contour of the circle assembly
- $\frac{3}{8}$ " UHMW poly wear plates located under the circle hold down blocks ease circle movement
- Reinforced circle assembly arms provide increased support for the reversing cylinders

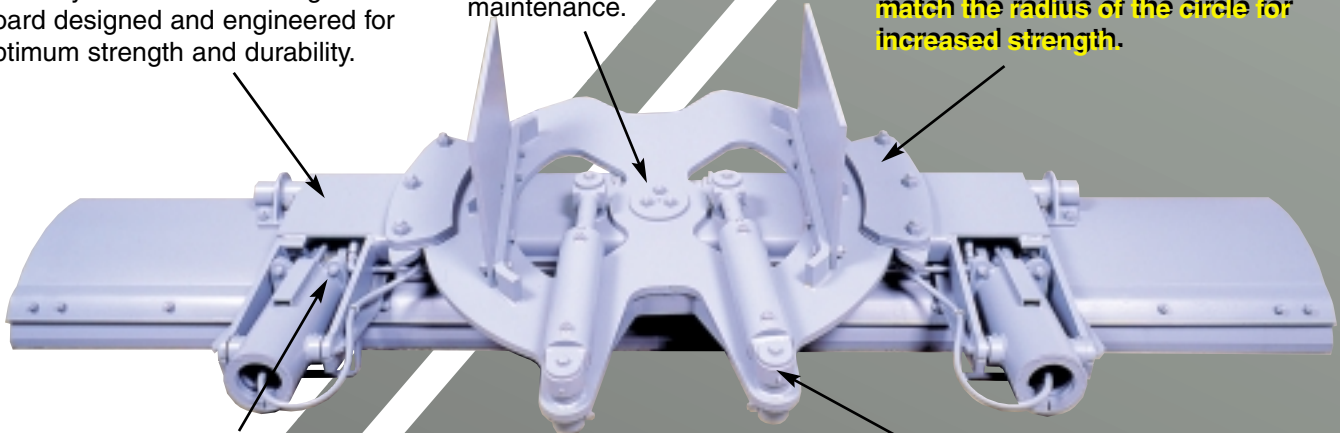

Quality Engineered Features are Standard on the 3500...

Specially manufactured hanger-board designed and engineered for optimum strength and durability.

5" center pin lubricated with a grease zerk for ease of maintenance.

Contour shaped hold down blocks match the radius of the circle for increased strength.

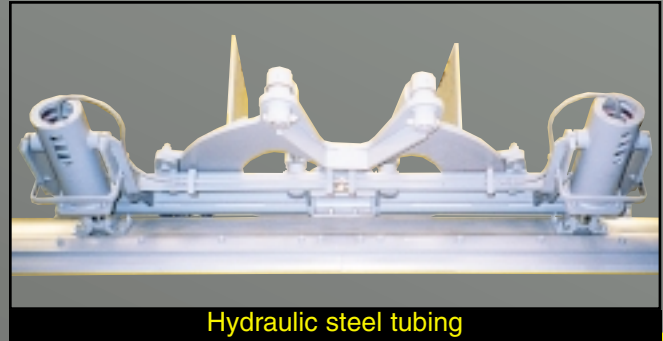

Actuating canister/cylinder assembly retained by a 4-bolt flange.

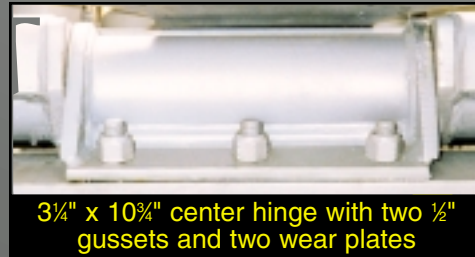

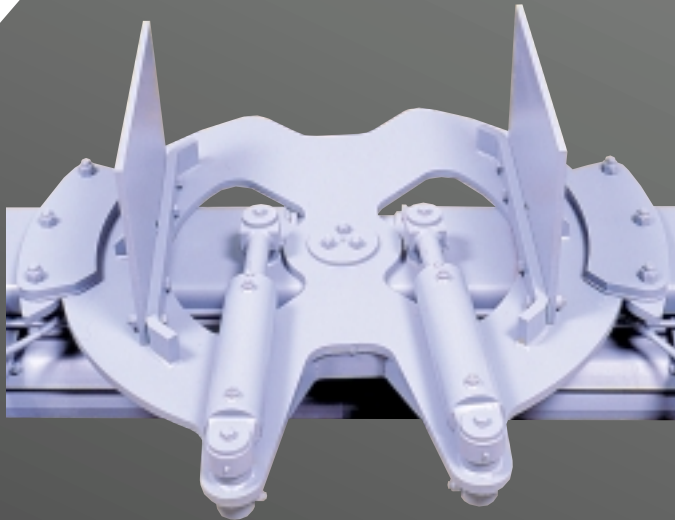

Reversing cylinders mounted to the circle using 2" pivot pins.

Reversing Table

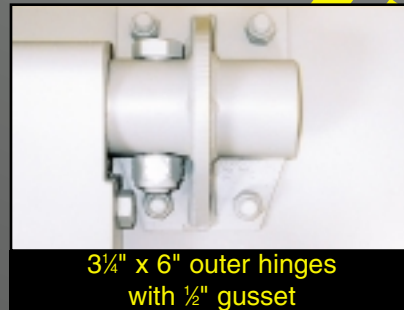

- Reverses to a full 45° rotation
- 20½" x 7" hold down blocks with ⅜" UHMW wear plates
- Two 4" double acting reversing cylinders with 2" hard nitrided rods
- 900 PSI cross-over relief valve

Hydraulic steel tubing

3/4" x 10 1/4" center hinge with two 1/2" gussets and two wear plates

3/4" x 6" outer hinges with 1/2" gusset
